

*Are you concerned about the care of our natural world
and the future of our children?*

Help Elevate Environmental Literacy... ...with the EEC

Join the Environmental Education Collaborative (EEC), a grassroots organization that works to increase funding, programs, and policies for environmental education (EE) in Riverside and San Bernardino Counties. EEC is an inclusive network that promotes existing programs at non-formal sites, including nature centers, parks, museums, and outdoor camps. We collaborate with teachers, school districts, program providers, businesses, and organizations.

With people like you and the support of over 50 local partners, we can elevate EE to a new level of importance and urgency.

Here's How

- Visit our website to sign up for our free, periodic newsletter.
- Attend our monthly meetings.
- Join our social media sites and share your events at our Facebook Group page:
<https://www.facebook.com/groups/EECollaborative> .

All EEC organizational members are provided a free basic listing on our website and when we reprint the Environmental Learning Resources guide:
<https://enviroedcollaborative.com/resources/>.
